

## Devonshire Infant Academy Sports Premium Review 2019-2020

The school received £17,840 Sports Premium

Ofsted recommendations are that investment should “impact on increasing participation, promoting health and wellbeing and improving performance of all children and groups”. The improvements are sustainable because we are investing in training our teachers and support staff and investing in equipment.

Objective	Cost	Actions	Impact	Plans for Sustainability
To provide children with the opportunity to ride a bike and improve their balance skills and core stability.	Planned spend - £4500 Actual spend - £4500 (continued to pay staff member through lockdown)	Provide balance ability course for all year one children. Employ a trained sports leader to deliver the course.	Children began to improve their balance and co-ordination. Due to COVID-19 this opportunity ceased on 23/3/2020	Children can access bikes at home and become healthier and safer. Transferable skills – balance and co-ordination across other areas of the curriculum.
New PE leader to enhance subject leadership skills and work alongside other leaders. So that he can effectively track and monitor provision.	Planned spend - £2500 Actual spend - £2500 (continued to pay staff member through lockdown)	Release time for Physical Education leader to attend subject development and monitor provision. Time to meet with other PE leads through network groups and plan and organise cross school events. Funding for transport and staffing for cross school activities/ competitions.	PE co-ordinator provided support to staff. A new long term plan put in place with clear, detailed planning. School sporting events were cancelled after 23/3/2020 due to lockdown	Children encouraged to enter competitions in later life and outside of school.  A highly skilled PE leader able to ensure good quality provision across the school in the future.
To ensure that children with specific and complex needs are able to access targeted sports and activity. For staff to work alongside a PE specialist.	Planned spend - £2600 Actual spend - £1300  Specialist did not attend school after 23/3/2020	Utilise expertise of WBA foundation to plan and deliver weekly sessions for targeted pupils who find whole class PE sessions to demanding and cannot cope in a large group. Provide lunchtime club where they can be supported in extracurricular activities.	Children accessed a specifically designed PE curriculum that met their needs. Their confidence and coordination increased. Their ability to turn take and support those around them improved.	Staff attend sessions and can plan and replicate activities at other times during the week and in the future.

		To provide extra sporting opportunities for children with social and emotional needs (nurture group).		
To teach children how to initiate sports or games in outdoor play daily.	Planned spend - £2500  Actual spend - £2500  (continued to pay staff members through lockdown)	Support dinner staff to engage in activities at dinner time. Provide equipment for children to access. PE lead to work with staff during playtimes to model to the children how to create games and	Children initiated games and activities themselves and began to develop teamwork, turn taking and collaboration skills. Activity levels began to increase. Gross motor skills improved as they accessed the equipment.	Children enjoy playtimes and are able to create and play their own games.
To ensure children have opportunities to experience competitive sport	£2000 – transport and subsidise staffing costs  Actual spend - £500 (staffing cost)	PE lead to organise competitive sporting opportunities for the children to participate in. Provide staffing and transport to facilitate this.	Summer competitions were cancelled due to lockdown. Whole school sporting events were completed and children had the opportunity to participate in competitive sport. Fencing provided an addition, varied sporting opportunity.	Build strong links with sporting venues in the area and make links with local schools so that this can continue in the future.
To enable children to experience physical activity out of school hours	Planned spend - £3700  Actual spend - £3700 (continued to pay staff members through lockdown)	Provide a free sports club for Key Stage One after school – focus on a range of sports and ensure all Key Stage One children have the opportunity to attend a club	Children enjoyed and participated in a range of sporting activities up until 23/03/2020. Clubs were then cancelled due to lockdown.	School staff can build on the skills and experiences and children experience a range of activities to promote fitness – outside of the school day
